# Printwell: helping you save time, money, and the environment too

BY DOSI COTRONEO

What to do with all of those empty ink jet-cartridges from your printer? Rather than have them take up space for millennia in a local landfill, why not bring them to Printwell, the full-service ink jet cartridge re-fill station located right in the heart of Barrhaven? Located in the mall at 3350 Fallowfield Road and Woodroffe, Printwell's mission is to save their customers time and money, while taking care of the environment. This is the winning combination that has helped make Printwell so successful. Printwell has earned a reputation in the industry as a dependable company that provides high quality products, which are supported by quality service.

What makes Printwell products so unique is that they are closest to the original print cartridge in the country. As a franchise organization, Printwell has continuously created initiatives in a variety of areas to help businesses work more efficiently.

Established in 2002, Printwell is a full-service ink jet cartridge re-fill station and retailer of 100 per cent remanufactured ink jet cartridges and laser toners. With retail locations in Ontario and Québec and more opening every month, Printwell is an extremely popular destination for the printing needs of both local businesses and casual shoppers in the local market.

The same business philosophy that has made Printwell successful in meeting their clients demands, applies to their mission statement, "to be recognized as the leading ink jet cartridge provider in the local market."

The real proof of their leadership is the lasting personal relationships they build with their customers. "We try to get involved with the local community as much as possible," said Carmine Langiano. "Since opening up in Barrhaven, we've taken part in many community events, including the Run for Rogers House, and participating in local school events as well."

No need to head into the

city fighting traffic and parking when your full-service print cartridge, printer and toner supplier is right in the neighbourhood.

"All our clients have to do is bring in their empty cartridges, and we refill them right here. We do 95 per cent of the cartridges that are out on the market. We also sell printers, and a big part of our work is educating and consulting our clients as to what products they really need – whether it's toner, or purchasing and maintaining the printer that's right for their needs," said Lagiano.

By calling Printwell, you will not have your request for service routed out of town. Instead, you will find friendly, well-informed staff who care about you - working together to share their knowledge, and do whatever it takes to meet your service needs. Bring in this ad and receive 25 per cent off your next purchase.

For more information about Printwell and their products, visit their website at [www.printwell.ca](http://www.printwell.ca) or telephone (613) 825-8285.
